

Create museum memories

ORANJESTAD — Museums are an integral part of conserving and honoring cultures, and Aruba is no exception. Our Island has a wide selection of various museums for our locals and visitors to see. Take this opportunity to learn about our island and experience a different day beyond the beach. Let us introduce to you these museums.

Museum of Industry Aruba

The Museum of Industry is located in San Nicolas—better known as the art capital of Aruba. This museum exhibits the industrial history of gold, aloe, phosphate, oil and tourism through elaborated displays and multimedia installations. The Museum of Industry is situated in the Water Tower in San Nicolas and narrates Aruba's industrial history, which began in the 19th century. The Water Tower was built in 1939 and consists of three sections: the substructure, the high-rising vertical shaft, and the tank at the top. The Water Tower was purchased by the Monuments Fund in 2003 so

it can be restored and preserved as one of Aruba's monuments. The Museum of Industry is part of Aruba Museum Foundation (Fundacion Museo Aruban), which is a foundation set to maintain, preserve, and protect the Aruban cultural sector, history, and nature. The museum of Industry is open daily from 9 am till 6 pm.

For more information, check out their Facebook page Museum of Industry Aruba.

Archaeological Museum of Aruba

The Archaeological Museum of Aruba is located at Schelpstraat 42 in downtown Oranjestad. The renovated historic Ecury complex in the area has been transformed from a family home to a modern museum that preserves Aruba's Amerindian cultural heritage. This 21st century museum is especially designed to preserve valuable artifacts dating back to the Pre-Ceramic period of 2500 BC.

In the late 1980's, AMA identified its need for an adequate housing for its collection and activities. After studying various options, a project proposal was drawn up, including the acquisition and restoration of historical buildings in downtown Oranjestad.

These historical buildings were formerly the property of the Ecury

family. The "Ecury Complex", is a cluster of single and two-story historic buildings, mainly Dutch colonial architecture from the late 19th and 20th century on a plot of approximately 1.700 m2.

In 1997, the Aruban Government bought the complex for the National Archaeological Museum project. In 2004, a financial agreement was signed with the European Development Fund and in 2006, restoration and construction work began on the monumental buildings and the soon-to-be exhibition space. In December 2007, the key to the complex was delivered and the museum's employees moved to the new location. The final design for the exhibit was completed in November 2007 and the permanent exhibit, financed by the Aruban Government and the Union of Cultural Organizations (UNOCA),

opened in July 2009.

At the new location, the National Archaeological Museum Aruba disposes of approximately 500 m2 for its permanent exhibit. This exhibit conveys information on the origin and culture of the first inhabitants of the island through archaeological objects and modern exhibition techniques. The new permanent exhibit gives the visitor an insight into the cultures that inhabited the island in Pre-Historical and Early Historical times. The museum also hosts attractive public programs, including lectures, educational projects, temporary exhibits and workshops.

The museum is open daily from 9:30 am till 4:30 pm. For more information check out the Facebook page Museo Arqueologico Nacional Aruba. □

Aruba's most family-friendly beaches

(Oranjestad)—One of the biggest concerns that parents have when travelling with their children is a guarantee of their safety and healthy enjoyment. Therefore, we thought it would be a great help to travelling parents to list off some the most family-friendly beaches around the island.

Baby Beach in San Nicolas

Baby Beach is one Aruba's most popular and visited beaches, and for good reason: This sandy and quiet lagoon is a great place for parents to sit back and relax while their children play in the shallow shores of the beach. Beside the relaxing atmosphere, there are also several services that may accommodate your stay, like a parking lot, sun tent rentals, chairs, bathrooms and a snack bar right at the far left of the beach.

Mangel Halto in Pos Chiquito

Mangel Halto is situated in the back streets of the Pos Chiquito city. Though there are several stairs on the sides of the beach cliff leading you down, the best spot for families to hang out is across the bridge, passed the mangrove trees near the entrance sign. Here, there are small and big palapas, per-

fect for big and small families to set up their belongings. In this area, the shore is also shallow, falling right around your knee before slowly getting deeper: perfect for kids to safely play.

Eagle Beach/Palm Beach in the hotel area

Yet another highly popular beach site, Eagle Beach and Palm Beach is where

most of our visitors go to tan, swim or play in the white sand. Because they are near the low-rise and high-rise hotel areas, these beaches are the most accessible for visitors on foot. These beaches also offer many palapas free to use, but you can also rent chairs and tents. Much like Baby Beach, these sites are one of the best beaches for your children to play and

build sand castles.

Boca Catalina in Malmok

Boca Catalina is a small bay beach near the Malmok beach area further down the hotel areas. Though it may not be a very sandy beach, it is relatively quiet and tranquil. This is a great place for family to lay down a big blanket and have a little picnic. This is also one of the best places to snorkel, as this area is filled with little fish and corals, even close to the shore.

Palm Island

Ok, this one is technically not a beach, but a must-visit attraction for family fun. This small water park oasis is located further down the Mangel Halto Beach and is reachable by boat. This water park offers 6 hours of fun activities, food, drinks, and a chance to see pink flamingoes up close! □
